(*3*) In the Fifth Schedule to the same Code, in Form IX, after the words "*or* seals, *or* coins" the words "*or* obscene objects" shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

On the 8th March, 1924, the following resolution was adopted by the Assembly :—

"This Assembly recommends to the Governor General in Council—

(1) that India do ratify the International Convention for the suppression of the circulation of, and traffic in, obscene publications, dated the twelfth day of September, One Thousand Nine Hundred and Twenty-three, which was drafted by the International Conference which met at Geneva under the auspices of the League of Nations on the 31st August, 1923 ;

(2) that in the legislation to be introduced in the Indian Legislature in accordance with the provisions of the Convention, it should be made an aggravation of the offence of the offer, delivery, sale or distribution of obscene matters or things if such is made to persons of either sex below a certain age."

A resolution in identical terms was adopted by the Council of State on the 11th March, 1924. The Bill proposes to give effect to this resolution.

2. In the first place, the proposed section 292 of the Indian Penal Code is intended to give effect to Article 1 of the International Convention for the suppression of the circulation of, and traffic in, obscene publications, which runs as follows :—

"The High Contracting Parties agree to take all measures to discover, prosecute and punish any person engaged in committing any of the following offences and accordingly agree that

It shall be a punishable offence :

(1) For purposes of or by way of trade or for distribution or public exhibition to make or produce or have in possession obscene writings, drawings, prints, paintings, printed matter, pictures, posters, emblems, photographs, cinematograph films or any other obscene objects ;

(2) For the purposes above mentioned to import, convey or export or cause to be imported, conveyed or exported any of the said obscene matters or things or in any manner whatsoever to put them into circulation ;

(3) To carry on or take part in a business, whether public or private, concerned with any of the said obscene matters or things, or to deal in the said matters or things in any manner whatsoever, or to distribute them or to exhibit them publicly or to make a business of lending them ;

(4) To advertise or make known by any means whatsoever, in view of assisting in the said punishable circulation or traffic, that a person is engaged in any of the above punishable acts, or to advertise or to make known how or from whom the said obscene matters or things can be procured either directly or indirectly."

The existing exception in section 292 of the Code is, however, retained.

3. In the final Act of the International Conference which drafted the Convention, it was stated that the Conference generally was of opinion that the offences of offering, delivering, selling or distributing obscene objects must be held to have been aggravated when committed in respect of minors. The Council considered that it would be preferable to leave each State free to fix the age under which a person should be considered to be a minor for the purposes of this provision. The principle of this recommendation was accepted in the resolution adopted by both Chambers of the Indian Legislature though no decision was arrived at as to the exact age that should be specified. Local Governments were consulted upon the question and after considering their replies, it has been decided to make the age 20 years. This proposal is given effect to in the proposed section 293.

4. The Convention, in Article 5, also provided that legislation should be undertaken to make provision for the searching of any premises where there is reason to believe that obscene matters or things mentioned in Article 1 of the Convention are being made or deposited for any of the purposes specified in the Article, or in violation of its provisions, and for their seizure, detention and destruction.

In clause 3 of the Bill, the necessary amendments to section 98 of the Code of Criminal Procedure, 1898, to give effect to this Article of the Convention are embodied.

5. The remaining provisions of the Bill are merely consequential.

The following Bill was introduced in the Legislative Assembly on the 15th September, 1924 :—

No. 29 OF 1924.

A Bill to repeal certain enactments whereby breaches of contract by labourers are made punishable under the criminal law.

WHEREAS it is expedient to repeal certain enactments whereby breaches of contract by labourers are made punishable under the criminal law ; It is hereby enacted as follows :—

Short title and commencement.

1. (*1*) This Act may be called the Workmen's Breach of Contract (Repealing) Act, 1924.

(*2*) It shall come into force on the first day of April, 1926.

Repeals.

2. The enactments mentioned in the Schedule are hereby repealed to the extent specified in the fourth column thereof.

THE SCHEDULE.

ENACTMENTS REPEALED.

(*See section 2.*)

Year.	No.	Short title.	Extent of repeal.
1859	XIII	The Workman's Breach of Contract Act, 1859	The whole
1860	XLV	The Indian Penal Code.	Sections 490 and 492.
1897	XIV	The Indian Short Titles Act, 1897.	So much of the Schedule as relates to the Workman's Breach of Contract Act, 1859.
1920	XII	The Workman's Breach of Contract (Amendment) Act, 1920.	The whole.
1920	XXXVIII	The Devolution Act, 1920.	So much of the First Schedule as relates to the Workman's Breach of Contract Act, 1859.

STATEMENT OF OBJECTS AND REASONS.

On the 20th February, 1923, Mr. K. C. Neogy asked for leave to introduce a Bill in the Legislative Assembly to repeal the Workman's Breach of Contract Act, 1859, as amended by Act XII of 1920. The motion, which was finally rejected by the Assembly, was opposed by Government on the ground that though the Act might not be necessary as an all-India measure, Local Governments must be at liberty to place before their own legislatures some measure to give protection, where necessary, to employers and industrialists in particular areas and in particular circumstances. It was also pointed out that time must be given to employers and industrialists to adjust themselves to the changed conditions which would follow when the Act was repealed. An undertaking was, however, given that Government would take the necessary steps to repeal the Act with effect from 1926. This Bill is intended to give effect to that undertaking, and seeks to repeal with effect from 1st April 1926, the Act of 1859. An opportunity has at the same time been taken of repealing sections 490 and 492 of the Indian Penal Code which deal with cognate matters as their repeal seems to be a logical development of the repeal of the Act of 1859.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 23rd September 1924 :—

No. 33 OF 1924.

A Bill further to amend the Special Marriage Act, 1872.

WHEREAS it is expedient further to amend the Special Marriage Act, 1872 : It is hereby enacted as follows :— III of 1872

Short title and extent.

1. (*1*) This Act may be called the Special Marriage (Amendment) Act, 192 .

(*2*) It extends to the whole of British India.

Amendment of section 2 (3) of Act III of 1872

2. In clause (3) of section 2 of the Special Marriage Act, 1872, for the words "has not completed the age of twenty-one years" the words "is a minor, within the meaning of section 3 of the Indian Majority Act, 1875," shall be substituted. III of 1872

STATEMENT OF OBJECTS AND REASONS.

In order to be competent to contract a marriage under the provisions of the Special Marriage Act, 1872 (III of 1872), that Act provides (*inter alia*) that each party if he or she has not completed the age of 21 years must obtain the consent of his or her father or guardian to the marriage. When this Act was enacted, the Indian Majority Act, 1875 (IX of 1875), had not been passed. Except in cases where a guardian is appointed by a Court of Justice, this Act terminates the minority of a person on completion of the 18th year. The English age of minority extends up to the completion of 21 years, which age was taken as the age of minority in the Special Marriage Act of 1872. Consequently, under this Act, if a person completes his 18th year but is below 21, and has no father alive or present to give his consent, he cannot marry at all. He cannot obtain the consent of his guardian because he can have no guardian on attaining his majority, nor can he get one appointed for the purpose of obtaining his consent and thus comply with the provisions of section 2 (*3*) of the Special Marriage Act, since the Guardian and Wards Act, 1890 (VIII of 1890), only applies to persons who are minors within the meaning of the Indian Majority Act, 1875 : (see *ibid*, section 4, sub-clause 1). It is therefore clear that the Special Marriage Act of 1872 has long required to be amended so as to bring its section 2 (*3*) in conformity with the provisions of the Indian Majority Act, since with the statutory fixation of the age of majority in this country at variance with the English law, that section which followed the English law required also to be amended. Since the provisions of the Special Marriage Act have recently been enlarged by the enactment of Act XXX of 1923, representations have been made that its provisions cannot be availed of by persons between the ages of 18 and 21 owing to this anachronism in the law which requires to be rectified. The present Bill is intended to serve that purpose.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of State on the 19th September 1924 :—

No. 9 OF 1924.

A Bill to amend the provisions of section 27 of the Indian Succession Act, 1865.

WHEREAS it is expedient to amend the provisions of section 27 of the Indian Succession Act, 1865, so as to provide more liberally for the surviving widow or husband where there are no lineal descendants in the case of an intestacy; It is hereby enacted as follows :— X of 1865.

Short title

1. This Act may be called the Indian Succession (Amendment) Act, 192 .

Amendment of section 27, Act X 1865.

2. To the second paragraph of section 27 of the Indian Succession Act, 1865 (hereinafter referred to as the said Act), before the words "If he has left no lineal descendant" there shall be prefixed the words "Save as provided by section 27A." X of 1865.

Insertion of new section 27A

3. After section 27 of the said Act the following section shall be inserted, namely :—

Special provision where intestate has left widow and no lineal descendants

"27A. (*1*) Where the intestate has left a widow but no lineal descendants and the nett value of his property does not exceed Rs. 5,000, the whole of his property shall belong to the widow.

(*2*) Where the nett value of the property exceeds the sum of Rs. 5,000, the widow shall be entitled to Rs. 5,000 thereof and shall have a charge upon the whole of such property for such Rs 5,000 with interest thereon from the date of the death of the intestate at 4 per cent. per annum until payment.

(*3*) The provision for the widow made by this section shall be in addition and without prejudice to her interest and share in the residue of the estate of such intestate remaining after payment of the said sum of Rs. 5,000 with interest as aforesaid in the same way as if such residue had been the whole of such intestate's property.

(*4*) The nett value of the property shall be ascertained by deducting from the gross value thereof all debts, funeral, and administration expenses of the intestate, and all other lawful liabilities and charges to which the property shall be subject."

STATEMENT OF OBJECTS AND REASONS.

When the Indian Succession Act was passed in the year 1865 under the English law as it then existed a widow in the case of the intestacy of her husband, where there were no lineal descendants, took one half of his property if there were kindred. This is the rule contained in section 27 of the Indian Succession Act, 1865. By the Intestates Estates Act, 1890 (53 and 54 Vict., cap. 29), the law was altered and the whole estate went to the widow if it did not exceed in value £500 and the intestate left no lineal descendants. Furthermore in any case where there were no lineal descendants on such an intestacy even if the property exceeded £500 in value the widow was given a charge on the whole property up to £500. In connection with the Bill to consolidate the law relating to succession which is before the Council of State attention has been drawn to the difference between the law in England and in India. The Bengal Chamber of Commerce, the Solicitor to the Government of Bengal and the Administrator General all consider that there is a case for amendment. The present Bill adopts the more liberal rule of the English law. It only need be added that, in view of section 43 which provides that a husband surviving his wife has the same rights in respect of her property on her intestacy as she has on his, it will confer the same benefits on the widower as the Bill expressly confers on the widow. It is suggested there is no ground for differentiation and this result is in accordance with the general tenor of the Indian Act.

ADMINISTRATION REPORT OF THE SALT DEPARTMENT, BENGAL, FOR THE YEAR 1923-24.

NOTIFICATION.

No. 1911S.R.—The 21st October 1924.—Extracts paragraphs 1-10, 12, 15, 16, 19 (omitting first sentence) and 20 from the report of the Commissioner of Excise and Salt, Bengal, on the Administration of the Salt Department in Bengal during the year 1923-24 are published for general information.

A. MARR,
Secretary to the Government of Bengal.

No. 3602 E., dated Calcutta, the 4th August 1924.

From—J. C. PLATTS, ESQ., offg. Commissioner of Excise and Salt, Bengal,

To—The Secretary to the Government of Bengal, Finance Department.

I have the honour to submit the following consolidated report on the administration of the Salt Department for the year 1923-24. The report deals with the preventive operations in the saliferous districts of the Presidency, which were under the control of the Commissioner of Excise and Salt, and with the importation and issue of salt under the control of the Customs authorities.

2. **Charge of the Department.**—Mr. S. C. Mukherjee, I.C.S., was in charge of the Department from the 1st April 1923 to the 14th September 1923, and Mr. G. P. Hogg, M.A., I.C.S., held charge during the remainder of the year.

CHAPTER I.

3. **Credit system of payment of duty.**—This system continued to be patronised by the salt dealers in Calcutta. Fourteen more merchants availed themselves of the credit system during the year under report. There were 112 depositors during the year as compared with 98 in 1922-23 and 85 in the previous year. The amount of duty to be adjusted against securities was Rs. 1,52,91,604 against 73,59,161 in the preceding year. None of the merchants at Chittagong took advantage of the credit system.

4. **Salt golas at Sulkea and Chittagong.**—There was congestion at the Sulkea *golas* during the year under report and to meet this situation six private bonded warehouses were opened at Ramkristopur, Ahiritola, Chitpur, Kumartooli, and Cossipore, all in Calcutta and its environments. A re-weighment shed was erected at Sulkea. Want of accommodation at the Salt *golas* in Chittagong was also felt and the Commissioner of the Chittagong Division and the Collector of Customs, Chittagong, report as follows:—"The importations in the second and third quarters of the year under report led to congestion, as all the *golas* at Moheshkhal, Sadarghat and in the Customs House compound were fully occupied. This necessitated the licensing of several private warehouses for the storage of the surplus quantity. As the Government *golas* were unable to cope with the rush, some inconvenience was felt by the trade and steps are now being taken to build more *golas* for salt. The removal of the Sadarghat *golas* to Moheskhal was not undertaken during the year as no allotment of funds was made for the project."

5. **Consumption of duty-free salt for commercial purposes.**—The quantity of salt delivered from the Sulkea *gola* for commercial purposes and for which drawbacks were granted was 28,150 maunds as compared with 5,100 maunds in 1922-23. Besides the above, 6,000 maunds of salt were issued free of duty during the year under report for the manufacture of glazed stoneware as against 5,311 maunds in the preceeding year. No quantity of salt was issued from the Chittagong *gola* for commercial purposes during the year under report.

6. **Manufacture of salt in Bengal.**—No license was granted for the manufacture of salt during the year under review.

CHAPTER II.

Stocks, Imports and Clearances.

7. **Accounts of stocks and issues.**—The stocks, imports and clearances of salt in and from the ports of Calcutta and Chittagong for the years 1922-23 and 1923-24 are shown below:—

Stocks, imports, etc.	1922-23. Mds.	1923-24. Mds.
Total of all stocks at the commencement of the year	42,29,106	34,27,361
Total quantity imported during the year	1,45,81,435	1,05,76,255
Excess found in the *golas*	18,929	8,333
Total ..	1,88,29,470	1,40,11,949
Quantity of duty-paid salt actually issued during the year	1,51,36,150	1,00,48,161
Quantity which passed free of duty for the manufacture of glazed stoneware, etc.	5,311	6,000
Quantity of non-duty-paid salt removed under bond to the inland warehouses	1,83,358	2,22,180
Quantity written off during the year on account of wastage or otherwise ..	77,290	97,385
Total ..	1,54,02,109	1,03,73,726
Balance at the close of the year ..	34,27,361	36,38,223

Both imports and clearances showed a decrease as compared with the corresponding figures of the previous year.

8. **Imports.**— * * * * * * * * * The total imports to Calcutta and Chittagong decreased by 24·91 per cent. and 41·71 per cent. respectively. In Calcutta the importations of German, Spanish and Port Said salt showed a marked decrease and those of the United Kingdom and Massowah showed an increase. The largest import into Calcutta was of Aden salt. The imports showed a slight increase over the previous year's figures. Imports of Indian salt fell heavily during the year under report. There was an all-round decrease in Chittagong which is reported to have been chiefly due to the increased rate of salt duty as compared with that of the previous year. There was practically no import of salt into Chittagong during the last quarter of the year under report. Out of the total importations of 92,83,726 maunds into the port of Calcutta, 45,97,695 maunds or 49 per cent. were bonded in the Sulkea *golas* as compared with 41 per cent. in the previous year.

During the year under report 92 vessels carrying salt entered the port of Calcutta as compared with 126 in the preceding year and 112 in 1921-22.

9. **Sales of imported salt from shipboard and bond.**— * * * * * * * * * * In Calcutta the sales both from shipboard and bond decreased by 38·54 per cent. and 1·15 per cent. respectively. In Chittagong also the sales decreased by 37·9 per cent. and 43·59 per cent. respectively. There was a decrease of 24·82 per cent. in the total sales of imported salt.

10. **Transactions in the golas.**—The total transactions at the *golas* in Calcutta and Chittagong for the past five years are given below:—

Years.	Calcutta. Mds.	Chittagong. Mds.
1919-20	1,52,78,108	13,10,126
1920-21	1,65,04,658	29,79,335
1921-22	1,35,70,870	24,66,347
1922-23	1,09,14,216	37,68,997
1923-24	89,10,103	22,13,560

12. **Inland bonded warehouses.**—There were 5 private bonded warehouses in this Presidency as compared with 4 in the previous year, *viz.*, 1 at Naraingunge, 2 at Jhalakati and 2 at Chandpur. The quantity of salt despatched to the above five inland warehouses from shipboard and *golas* in the port of Calcutta was 2,22,180 maunds as compared with 1,83,358 maunds in the previous year showing an increase by 21·17 per cent. No quantity of salt was despatched to these warehouses from the port of Chittagong during the year under report.

CHAPTER III.

Consumption and Prices.

15. **Consumption.**—The total quantity of salt which passed into consumptoin during the year under report was 1,13,54,380 maunds against 1,51,14,697 maunds in the previous year. This is inclusive of 5 maunds imported from Thibet, but exclusive of 21,050 maunds exported to Nepal, Sikkim and Bhutan.

16. **Prices of salt in Bengal generally.**— * * * * * * * * * * * * There was an increase of annas 4-2 over the previous year's average. The fluctuations in the price of salt per 100 maunds are givén below :—

Description of salt.	1st quarter.		2nd quarter.		3rd quarter.		4th quarter.	
	Calcutta.	Chittagong.	Calcutta.	Chittagong.	Calcutta.	Chittagong.	Calcutta.	Chittagong.
United Kingdom ..	98	..	95	..	75	..	..	..
Spain	95	..	95	..	63	..	..	..
Port Said	90	100	80	100	66	81	..	83
Aden	90	100	80	100	66	81	..	83
Massowah	90	100	80	100	66	81	..	83
Hamburg	91	..	86	..	73	..	..	..
Madras	..	75	..	75		62	..	50

It will be seen from the above statement that the prices were high during the first half year and fell during the second half. In Calcutta the lowest price recorded was in respect of Spanish salt and in Chittagong it was for Madras salt. There were no sales at Sulkea during the last quarter of the year under report as the question of a reduction in the rate of duty was under consideration.

CHAPTER V.

Financial results.

19. **Receipts and charges.**— * * * * * * * The receipts showed a decrease by Rs. 2,49,566 or 1·35 per cent. The total charges also showed a decrease by Rs. 49,116 or 15·14 per cent. The net revenue was Rs. 1,78,86,264 which was less than that of the previous year by Rs. 2,00,450 or 1·1 per cent. The decrease in the receipts occurred mostly under the head "Import duty on salt". The charges do not include any share of the cost of the Customs Preventive Service, which is largely employed in

safeguarding the salt revenue. As the Salt Preventive Deparment is amalgamated with the Excise Department the whole expenditure of the two departments is debited to the head " 6—Excise " in the first instance, a fixed sum of two lakhs being subsequently adjusted under " 3—Salt."

CHAPTER VI.

Miscellaneous.

20. **Saltpetre refineries and soda factories.**—There were three licensed saltpetre refineries at Kakurgachi and Sulkea, as compared with the same number in the previous year. The quantity of refined saltpetre produced during the year was 1,440 maunds as compared with 1,742 maunds in the previous year. The decrease in the production was due to the closure of one of the factories during a portion of the year under report. The quantity of salt educed in the process of refinement was 67 maunds as compared with 85 maunds in 1922-23, and the quantity of *sitta* (impure salt) left in the course of refinement was 83 maunds as compared with 98 maunds in the preceding year. Sixty-two maunds of educed salt were sold during the year as compared with 32 maunds in 1922-23. A sum of Rs. 150 was realised as license-fee from the three saltpetre refineries. There was no factory for the manufacture of sulphate of soda.

Wholesale prices-current of food-grains, salt, etc., in the undermentioned marts of Bengal for the first-half of October 1924.

Repeal of Acts IX of 1918 and XII of 1924

15. *The Indian Soldiers (Litigation) Act, 1918, and the Indian Soldiers Litigation (Amendment) Act, 1924, are hereby repealed.* IX of 1918. XII of 1924

STATEMENT OF OBJECTS AND REASONS.

In May 1915 an Ordinance was made and promulgated for the special protection in respect of civil and revenue litigation of Indian soldiers serving under war conditions. The Ordinance was replaced in the first instance by an Act passed in 1915, and the provisions of that Act were re-enacted, with certain amendments, in the Indian Soldiers (Litigation) Act, 1918. The Act applies to Indian soldiers serving under war conditions and provides *inter alia* for the postponement in certain circumstances of civil and revenue proceedings in which an unrepresented Indian soldier is a party and for the deduction from periods of limitation in suits, appeals or applications by Indian soldiers of the periods during which they have been serving under war conditions. The Act applies to service under war conditions during the war and for six months thereafter, and to other service which is declared by the Governor-General in Council to be service under war conditions.

2. It was suggested that the protection required in these matters by Indian soldiers serving under war conditions was also required by Indian soldiers serving on garrison duty overseas and in certain areas in India. Local Governments and Administrations were accordingly consulted in regard to the working of the existing Act. They unanimously accept the suggestion to extend its operation, and are of opinion that it has been found to be of real benefit to the absent Indian soldier, and that the hardship caused to the general public has been negligible. Certain of the authorities consulted were, however, of opinion that the Act should not apply to suits, appeals or applications to enforce a right of pre-emption, nor to cases in which the interests of the soldier in the proceeding are either identical with or are adequately represented by another party to the proceeding. The former restriction on the application of the Act may be compared with the exception in section 8 of the Indian Limitation Act, 1908, and the restriction was proposed because of the insecurity of tenure which is involved by the present law in such cases. The Bill has been prepared to give effect to these suggestions, and it has been considered expedient to provide for them by consolidating and amending the law on the subject.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 23rd September 1924 :—

No. 30 of 1924.

A Bill to make provision for the weekly payment of wages to workmen, domestic servants and other employees.

WHEREAS it is expedient to make provision for the weekly payment of wages to workmen, domestic servants and other employees ; It is hereby enacted as follows :—

Short title, extent, commencement and application.

1. (*1*) This Act may be called the Weekly Payments Act, 192 .

(*2*) It shall extend to the whole of British India, including British Baluchistan and the Sonthal Parganas.

(*3*) It shall come into force on the first day of June, 1925.

(*4*) It shall apply—

(*i*) to every class of workers engaged in factories which come under the cognizance of the Indian Factories Act, 1911 ; XII of 1911

(*ii*) to all employees in Government or private service establishments ; and

(*iii*) to all skilled or unskilled workers or employees wheresoever employed, provided that such workers or employees are in receipt of wages, which in total amount to less than Rs. 100 per month.

Weekly payment of wages.

2. From the date of the passing of this Act, it shall be unlawful for any employer to engage any workman, domestic servant or other employee, provided such workman, domestic servant or employee is to be paid his wages at a rate amounting to less than Rs. 100 per month, on any other basis except that of payment of such wages on the weekly basis.

Penalties.

3. Any breach of this Act will be punishable with simple imprisonment which may extend to three months, and may also be punishable with a fine not exceeding Rs. 1,000.

Savings.

4. The provisions of this Act shall not affect the right of employers to make payments to workers on the daily or any other basis provided such payments are not withheld for more than a week.

STATEMENT OF OBJECTS AND REASONS.

During recent strikes in India it has been discovered that certain groups of unscrupulous employers have been in the habit of stopping the wages due to workmen who have worked in their factories even for a full period of a month, thereby causing a great deal of hardship to such workers and their dependants. The scandal created by such action on the part of employers was such that even the Government of Bombay had recently to take notice of it. The matter was subsequently raised in the Houses of Parliament where it was stated that the question of legislation on the lines indicated in the suggestion that payments to workers should be made on the weekly basis was under consideration. The passing of this Bill will certainly go a long way in getting a worker not only out of the clutches of mill Managers and mill Agents, but equally out of the clutches of the average money lender, considering that under the present circumstances an average worker's family in industrial area, where payment is made on a monthly basis, has to subsist on credit for a period of six weeks of their initial employment with not a single pice of their remuneration being paid to them during such period of their employment.

XII of 1911.
IV of 1923
VI of 1901.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is twofold :—Firstly, it is intended to prohibit the employment of women in those industries the work in which is regulated by law, six weeks after confinement, to enable them to leave work six weeks before confinement and to prevent them from being dismissed from service during the days of their absence from work due to their advanced state of pregnancy and confinement. Secondly, during the period of her absence due to the above-mentioned reasons a woman worker should be provided with financial help sufficient to maintain herself and the child in a healthy condition. The money necessary for this purpose is to be raised by the Local Government by levying contributions upon the industries covered by the Bill in the form of a small cess on the products of the industries or in some other convenient form to be decided by the Local Government. The amount to be given to each woman entitled to receive the benefit and the manner of payment and other matters connected with the Bill are left to be settled by the Local Governments by rules made by them.

The Bill seeks to carry out some of the proposals contained in the Draft Convention passed at the first International Labour Conference held at Washington in 1919. If India desires to secure her proper place among the civilised nations of the world she cannot plead her inability to treat her women workers in the way in which civilised nations are expected to do. Moreover, there seems to be a natural desire in the country for rapid industrialization. But if industrialism is to be an unmixed blessing to the working

classes, timely provision must be made to avoid and counteract the evils incidental to the introduction of the new system. There is no doubt that if women continue their long and arduous work in factories, mines and other organised industries even in an advanced state of pregnancy and immediately after confinement their health and the health of their children will not fail to suffer.

Provision of maternity benefit during the days of enforced absence is necessary as without such provision, more prevention of work will be a measure of doubtful utility. It is but fair that the financial burden of the provision of the maternity benefit should fall upon industries that employ women with their natural sex disabilities. Moreover, as only a small proportion of women out of the total number of women employed will be eligible for the maternity benefit during the course of the year, the incidence of the burden will be very small. To prevent women workers from being dismissed some time before they become entitled to the maternity benefit it is necessary that the maternity benefit should be paid out of the general fund and not by individual employers. As the welfare of labour is a Provincial subject it is only proper that the working out of the scheme for the maternity benefit should be left to Local Governments.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 23rd September 1924 :—

No. 32 OF 1924.

A Bill further to amend the Indian Railways Act, 1890.

WHEREAS it is expedient to amend the law relating to Railways in India; It is hereby enacted as follows :—

Short title

1. This Act may be called the Indian Railways (Amendment) Act, 192 .

Amendment of section 42, Act IX of 1890

2. In section 42 of the Indian Railways Act, 1890, after sub-section (*2*) the following *Explanation* shall be inserted, namely :— IX of 1890.

"*Explanation.*—For the purposes of this sub-section reservation of any compartment in a railway train for the exclusive use of any passenger as belonging to any particular community, race or creed shall be deemed to be undue preference."

STATEMENT OF OBJECTS AND REASONS.

This amending Bill is intended to prohibit reservation of compartments in railway trains for the exclusive use of persons belonging to any particular community, race or creed. In certain prosecutions under section 109 of the Indian Railways Act, 1890 (IX of 1890), the point at issue was whether such reservation amounted to undue preference within the meaning of section 42. The High Courts have variously interpreted section 42 in these cases while agreeing that such reservation is not *ultra vires*. The present amendment will place the matter beyond doubt and bring the law into line with public opinion.

The Committee of Management report that throughout the year the standard has been fully maintained both as regards the number of the collection and the condition of the animals and other exhibits.

An epidemic of rinderpest occurred amongst the Gayals, but with the co-operation of the Veterinary College, to the officers and staff of which the thanks of the Committee are due, this was checked successfully and animals which had been subjected to contagion were saved. Otherwise the death rate during the year was normal. The Committee also regret to report that two fur seals imported from Australia failed to survive, notwithstanding every effort to acclimatise them.

Climatic conditions impose considerable difficulties as regards acclimatisation, not only, as is more obvious, of those animals whose habitat is in more temperate countries, but even of those which, though accustomed to high temperatures, are not habituated to the high relative humidity which prevails in Lower Bengal. It is, therefore, very satisfactory to be able to report that the following animals appear to have been thoroughly acclimatised :—

Serow, Tahr, Goral, Gaur, Uryal.

Among improvements carried out during the year are the following :—

(1) A new Carnivora House was constructed in the Gardens with large outdoor runs attached to each den. Modern tendencies are in the direction of providing animals with every opportunity for spending their days in the open air, and the inner dens have therefore been reduced to the smallest possible dimensions. The floor is covered with sand and each run is provided with a large cement basin, a great desideratum in this climate. Grillage windows and wooden platforms have also been provided, securing proper ventilation to the dens.

The enclosure is one of the best houses in the Gardens and the design conduces considerably to the health of the occupants.

(2) The Hippo enclosure was found to be too small for the increasing number of hippopotami, and a portion of the adjacent Tapir enclosure was remodelled and suitably converted for the accommodation of this exhibit.

(3) To provide more convenient access to the Gardens for visitors who arrive by tram cars a new entrance gate has been constructed on the Orphangunge Road at a point as near as possible to the tram line. Self-acting entrance and exit turnstiles have enabled the Committee to reduce the additional staff required to the minimum—an important consideration when funds are not too ample.

(4) The unsightly banks of the ditch in the extension have been remodelled and permanent brick-edging has been provided

(5) A Raniganj tiled shed has been constructed on the southern side of the extension affording shelter from sun and rain.

(6) The old wire-netting fencing of the kangaroo paddock required renewal; the whole enclosure was dismantled, and a new linked wire-fencing was substituted and the boundary realigned.

General annual repairs to the buildings in the Garden were carried out as usual and alterations to iron work and wood work and painting to most of the houses were effected.

The floral display was well maintained. New paths have been laid and gravelled as required and others widened and altered. The main drive in front of the entrance lodge has been macadamised and portions were remetalled and paths thoroughly repaired and covered with soorky siftings.

The Committee report that the financial condition of the Garden is on the whole satisfactory, though the resources of the Gardens are only adequate, provided care and economy are exercised. There was an increase in the number of visitors, the turnstile records showing a total of 877,478 visitors, an increase of 23,475 over the figures of 1922-23.

The following is a comparative statement of visitors and receipts for recent years :—

		Number of visitors.		Receipts.	
				Rs.	A.
1921-22	...	840,055	...	65,854	6
1922-23	...	854,003	...	63,393	15
1923-24	...	877,478	...	64,420	7

A large number of children under 4 years of age and school children attended by their teachers were admitted free. On the occasion of the Fancy Fair about 10,260 people visited the Garden.

In addition 41,784 persons visited the Garden on free days. Detailed statements of the numbers of visitors and receipts appear in Appendix B.

The thanks of the Committee are due to those ladies and gentlemen who have added to the zoological collection by donations, a list of which is given in Appendix C. Thanks are also due to those who kindly offered to present animals to the garden, but whose offers could not be accepted either because the particular species of animals was already sufficiently well represented, or owing to want of accommodation.

The Committee desire to express their thanks to the Corporation of Calcutta for their continued generosity in remitting the consolidated rates in respect of the Gardens and to the railway and steamer companies for the conveyance, free of charge, of animals belonging to the garden.

Thanks are also due to the Officer Commanding and Officers of the 90th Punjabi Regiment for allowing their band to play at the Garden on Tuesday afternoons free of charge during the months of April 1923 to January 1924.

The Committee are much indebted to those members of the public who send their old and broken down horses to be destroyed at the Zoological Gardens.

H. B. TURLE,
Honorary Secretary.

P. L. BUCKLAND,
President.

4 Black swans.

The following were received from Melbourne Zoo :—

2 Great kangaroos.	2 Black-tailed wallabies.

1 Tasmanian devil.

The Zoological Society of Scotland sent one chimpanzee and 10 mute swans during the year.

The collection of common Indian aquatic birds was maintained at a high state of efficiency by constant supplies received through the good offices of Mr. W. K. Dods.

A list of donors and their donations during the year is given in Appendix D.

The following animals were born in the Garden during the year :—

1 Black swan.	2 Leopards.
2 Canadian geese.	1 Lion.
3 Bengal porcupines.	1 Great kangaroo.
2 Nicobar pigeons.	1 Sarus crane.
2 Tigers.	1 Hippopotamus.
5 Spotted deer.	2 Black-striped wallabies.
2 Fallow deer.	1 Philander opossum.
1 Kashmir deer.	4 Brow-antlered deer.
2 Common peafowl.	4 Indian pigs.
2 Four-horned antelopes.	5 Hog deer.
5 Hanumans.	1 Nilgai.
1 Rhesus monkey.	1 Barasingha.
1 Gayal.	Pythons.

Russell's vipers.

The following birds bred freely in a wild state on the island in the big lake :—

Little cormorant.	Indian snake birds.

Night heron.

The following birds laid eggs but were unable to hatch :—

Ostrich.	Sagaing fireback.
Emu.	Currasow.
Javan Jungle fowl.	Pied Imperial pigeon.
Chakar partridge.	Bare-eyed cockatoo.
Common peafowl.	Stanley crane.

Rinderpest broke out amongst the fine herd of Gayals which has bred freely during the past years and was a great attraction to the public. Every precaution was taken and the epidemic was successfully checked.

The two fur-seals which arrived last year died in spite of all efforts to acclimatise them.

The following animals were sent to the Zoological Society of Scotland on exchange account :—

1 Gayal bull.	1 Tibetan Yak.

The following specimens were destroyed during the year as unfit for exhibition—

1 Tiger.	1 Pigmy hog.
1 Shou (Sikkim stag).	1 Lion.

*The work in the Pathological Department was carried on as usual and thanks are due to the Principal, Bengal Veterinary College, and Major R. Knowles, I.M.S., of the Calcutta School of Tropical Medicine and Hygiene. The following extracts from the latter's report are of interest :—

Crested fireback—Showed intense congestion of the lungs and acute fatty degeneration of the liver. The visceral films all showed a heavy infection with a large spore bearing bacillus : and death was apparently due to septicæmia from this. The intestinal contents showed trichomastix and a heavy trichomonas infection—both active flagellate forms and cysts.

Assam langur—Died from an acute plasmodium infection. These plasmodium infections, ape malaria, are apt to be very fatal, and the infection is transmitted by mosquitoes.

Mandarin duck—All the viscera are apparently healthy, excepting there is fluid in the pericardial sack. Smears from organs show numerous bacteria—Post-mortem infection ? Gut contents are full of spirochætes blastocystis.

Vieillot's fireback—Died from Pasteurillosis. The lungs were deeply congested and the kidney films showed the most heavy infection.

Sulphur-breasted toucan—Died from Pneumonia. The left lung was deeply congested and other viscera normal, gut contents normal. The films from the heart blood, lungs and kidney were full of microfilariæ.

Sagaing fireback—The films from the viscera were full of a large proteus light bacillus, probably, however, a post-mortem invasion. There were no intestinal parasites discoverable. There was a heavy filarial infection, specially in the films from the lungs. This may possibly have had something to do with the death.

Tragopan pheasant—There was a regular degeneration of the entire intestinal tract. Stomach, moreover, was entirely blocked by the very large quantity of pebbles, and I think all this would account for the death of the bird.

A. G. MAFLIN,
Personal Assistant to the Chief Engineer and Secretary to the Government of Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for September 1924.

I. **Character of the season.**—During the month the rainfall was general throughout the province. It was above the normal in all the districts except in the 24-Parganas, Nadia, Jalpaiguri, Chittagong, Chittagong Hill Tracts and Cooch Behar, where it was in defect. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Good rainfall, especially in the first part of the month, facilitated transplanting of winter rice, the area of which is estimated to be greater than in the previous two years. Cutting, steeping and washing of jute were almost complete. Harvesting of autumn paddy was progressing, especially in the West Bengal districts.

III. **State of standing crops.**—The standing crops were thriving well except in parts of East Bengal, where the low-land crops were affected by floods of the previous month. In some flooded tracts the condition of crops was reported to be unfavourable.

IV. **Prospects and probable outturn.**—The outturn of autumn paddy was estimated at 64 per cent. and that of winter rice at 87 per cent. in the preliminary forecasts of the respective crops. The prospects of standing crops were satisfactory on the whole.

V. **Damage to standing crops.**—Some damage to the low-land crops by floods was reported from parts of East Bengal.

VI. **Condition of agricultural stock.**—The condition of livestock is fair on the whole. Stray cases of cattle-disease were, however, reported from 13 districts.

VII. **Failure of pasturage and fodder.**—Scarcity of fodder was reported from parts of Jessore, Faridpur and Rajshahi districts.

VIII. **Prices of food-grains.**—During the second half of the month, the price of common rice of the cheapest quality rose in 16 districts, fell in 5, and remained stationary in the rest of the province. It ranged from 4 seers per rupee at Mymensingh to 8 seers per rupee at Midnapore.

IX. **Condition of agricultural population.**—The condition of agricultural population was reported to be fair on the whole.

(*a*) Any member present may propose a candidate either by name or by virtue of his office for the office of Chairman.

(*b*) No candidature shall be taken into consideration unless it has been seconded by a member other than the proposer.

(*c*) If one duly nominated candidate duly stands for election, the President shall forthwith declare such candidate to be elected.

(*d*) When the names of all the candidates proposed and seconded have been ascertained, the President shall hand to each member a voting paper in the form appended to these rules in which will have been entered up the names of the candidates who have been duly nominated, and shall ask each member to record his vote by placing the mark X opposite the name of the candidate whom he prefers and to sign on the back of the voting paper.

(*e*) The voting paper shall be invalid if the mark X is placed opposite the name of more than one candidate, or if it is so placed as to render it doubtful to which candidate such mark is intended to apply.

(*f*) When the voting has been completed, each member shall sign his voting paper and shall hand the same to the President. Without such signature the voting paper shall be invalid.

(*g*) The President shall have the right of participating in the election of the Chairman and shall similarly record his vote.

(*h*) The President, as soon as all the voting papers have been delivered to him, shall examine them in the meeting and read out the names of the candidates against which the mark × has been validly made but shall not read out the names of the members voting. He shall then proceed to count the votes, having first rejected any voting paper which is invalid or which has been irregularly filled in, on which point his decision shall be final.

(*i*) When the counting of the votes has been completed, the President shall declare the candidate to whom the largest number of votes has been given to be elected Chairman.

(*j*) In the case of an equality of votes the President shall have a casting vote.

(*k*) Notwithstanding anything contained in rule 14 or in the Rules of Business adopted by any Board, it shall be sufficient at the election of a Chairman, where more than one candidate is proposed and seconded, to record in the proceedings the names of the persons proposing and seconding, and the number of persons voting for each candidate and the name of the candidate duly elected.

(*l*) The President shall forthwith report the result of the election to the Commissioner for submission to Local Government for confirmation.

(*m*) A quorum for the purpose of these rules shall consist of half the members of the District Board."

3. In rule 76 *delete* the words "and if the Lieutenant-Governor has so directed, shall also elect one of their number to be Chairman."

4. From the second sentence of the said rule *omit* the words "or Chairman," "or the Chairman" and "as the case may be."

RESOLUTION ON THE ANNUAL ADMINISTRATION REPORT OF THE DEPARTMENT OF INDUSTRIES, BENGAL, FOR 1923.

GOVERNMENT OF BENGAL.

DEPARTMENT OF AGRICULTURE AND INDUSTRIES.

Industries.

CALCUTTA, THE 11TH NOVEMBER 1924.

RESOLUTION—No. 5579.

READ—

The Annual Administration Report of the Department of Industries, Bengal, for 1923.

THE report has been submitted to Government six months after the date on which it was due. As stated in the Government resolution on the last

report, such belated publications mostly contain out-of-date information, and any observations that Government may like to make thereon consequently lose much of their value. Government are aware that in addition to his ordinary duties the Director of Industries had to guide the deliberations of the Unemployment Committee and to help in the organisation of the last Calcutta Exhibition. None of these considerations, however, takes away from the utmost importance of punctual submission of the departmental annual report. His Excellency the Governor trusts that in future strict punctuality will be observed in the submission of the report.

2. **Staff.**—Dr. D. B. Meek held charge of the department throughout the year. Mr. A. T. Weston, Deputy Director of Industries, went on leave on the 16th April 1923, making over charge of his office to Mr. E. Hoogewerf, officiating Inspector of Technical and Industrial Institutions, and the latter post remained vacant since that date. Dr. Rasik Lal Dutt continued to be the Industrial Chemist throughout the year. Mr. C. W. Budd, Industrial Engineer, resigned his appointment on the expiry of his leave on the 8th July 1923, and the post has not been filled up since.

Of the five Superintendents of Industries whose posts were decided to be abolished in accordance with the decision of Government on the Provincial Retrenchment Committee's report, four relinquished their respective offices during the year under review, while the fifth vacated his post shortly after the close of the year.

A final decision is expected to be reached shortly on the question as to the real requirements of the department in the matter of superior staff.

Orders have, however, issued since the close of the year effecting a heavy reduction in the clerical establishment of the department.

3. **Activities of the Department.**—The present activities of the Industries Department may be classified under the following main heads :—

(1) research and experiments ;

(2) propaganda by means of—

(*a*) holding demonstrations of proved results at suitable centres ;

(*b*) departmental bulletins ; and

(*c*) participation in the several exhibitions held in the province.

(3) encouragement of indigenous industries by technical assistance and advice as well as by securing special concessions, where possible ;

(4) organisation of markets for local products ; and

(5) provision for technical and industrial education—

(*a*) by maintaining Government institutions ;

(*b*) by subsidising or granting scholarships tenable at private institutions ; and

(*c*) by the grant of State technical scholarships.

It is gratifying to note that in spite of financial and other difficulties the report records fairly satisfactory progress in all these directions.

4. **Research and experiments.**—Research and experiments are essential preliminaries to all industrial development. As none but very big industrialists can afford to undertake these on their own account, the first and the most useful assistance that can be rendered by Government to small concerns, of which the Bengal industries as at present organised mostly consist, is to carry on research and experimental work on their behalf so as to discover the value of different raw materials and to evolve practical

schemes for their utilization. In the absence of a laboratory great inconvenience is being felt by the department in conducting research work. The Director of Industries has accordingly submitted a scheme for the establishment of a research laboratory which is now under the consideration of Government.

His Excellency the Governor is, however, glad to notice that notwithstanding the difficulty mentioned above the department has carried on some very important research work during the year, and that several useful experiments were in progress when the year ended. The Industrial Chemist has discovered certain useful and novel methods for the direct comparison of the damp-proofing qualities of different varieties of glue. Experiments conducted by him in several shellac factories for devising means for refining shellac have also proved successful. At his instance experiments have also been successfully carried out in the Belliaghata Glass Works so as to show that in the manufacture of good glass sodium carbonate or soda ash imported from Europe can be partly or wholly replaced by the cheaper salt cake obtainable as a bye-product in the acid industry without the use of high temperature which was hitherto believed to have been necessary. A process has also been worked out for turning out marketable leather from dry salted hides, and considerable success has been obtained in demonstrating the manufacture of fancy leather from goat skins and sheep skins. These results are calculated to be of great commercial value to the industries concerned.

Experiments are now in progress for (1) the manufacture of box sides from local cow hides, (2) the manufacture of glace kid from local goat skins, (3) the manufacture of chamois leather from sheep skins, and (4) a suitable method of retting of cocoanut husk for the purpose of coir manufacture. Interesting investigations are also being carried on for the preparation of suitable pigment finishes for Indian hides and skins and on the possibility of finding some industrial use for the water hyacinth, the stem of which is believed to provide a durable material for the manufacture of mats. Government look forward to the successful completion of these and other experiments in progress, specially of the one last mentioned, success in which will indirectly act as a stimulus towards the destruction of this notorious pest.

5. **Propaganda: Demonstration, publication of bulletins and participation in exhibitions.**—Special opportunities were afforded by the Calcutta Exhibition held during the year under report for displaying the arts and crafts of Bengal. The exhibition was opened under the patronage of His Excellency the Governor on the 1st of December 1923 and lasted for 51 days. While the exhibition was open to every article of trade, commerce or industry dealt with in India—whether imported or indigenous—special facilities were offered for local industries. Of all the Government departments participating in the exhibition the Department of Industries naturally took the most active part, and the demonstrations carried on at the exhibition by the staff of the Calcutta Research Tannery and the Serampore Weaving Institute were specially impressive and instructive. The department also undertook the organisation and display of the exhibits sent by the several District Cottage Industries Committees and the Industrial and Technical Institutions in Bengal. Thus the exhibition, although originally organised to serve as a preliminary to the British Empire Exhibition of 1924, had a great industrial, commercial and educative value of its own. Thanks of Government (Department of Agriculture and Industries) are due to the organisers of the exhibition who in the face of manifold difficulties carried the undertaking to a successful issue.

Two other demonstrations were held by the Calcutta Research Tannery during the year, viz., one at Sandip in the Noakhali district and the other at the Dacca Social Service and Industrial Exhibition. The former has proved so successful that one gentleman who attended the demonstrations regularly has started a small tannery, and a proposal for opening another tannery on a fairly large scale by some other gentlemen of that locality is now on foot.

Eighteen weaving demonstrations were held during the year, many of which have called forth immediate local response. Special efforts were made to introduce fly-shuttle looms among the silk and *tussar* weavers, also jute weaving on fly-shuttle looms and jute spinning on an improved type of automatic *charka*.

The peripatetic weaving schools are reported to have done specially good work in popularising improved methods of handloom weaving, and about 500 fly-shuttle sleys were introduced through their agency during the year under review. Government will consider sympathetically the recommendation of the Director of Industries for an extension of this branch of work.

The following useful publications were issued by the department during the year under report, viz. :—

(1) improvements in the refining of shellac by Dr. R. L. Dutt, Industrial Chemist, Bengal. Government are glad to note that this bulletin has already proved so useful as to have created a demand for itself even outside the Presidency ;

(2) bleaching of *Gengwa* wood in the manufacture of matches by the same author and by Mr. Tincouri Basu—a publication which is also largely in demand and is of special interest to those engaged in the match industry ;

(3) report on the investigation into the possibilities of the match industry in Bengal by Mr. A. P. Ghosh. As stated in the resolution on the preceding year's annual report, this report, containing as it does many practical suggestions in regard to one of the most promising industries in Bengal. is expected to be a very useful guide to those who are interested in the industry ; and

(4) a bulletin on small tannery schemes which has been compiled to meet the frequent demand for information on the subject of organisation of small tanneries.

6. **Encouragement of indigenous industries by technical assistance and advice as well as by securing special concessions.**—The department deserves to be congratulated on its activities in encouraging indigenous industries by technical assistance and advice.

With a view to demonstrating to the brass and bell-metal workers the usefulness of a mechanical hammer, Government sanction was asked for and accorded to the purchase of such a hammer. The Calcutta Research Tannery, besides tanning leathers for private individuals, undertook the machine work involved in finishing the leathers of many small tanners in the neighbourhood of Calcutta. At the instance of the Bangitola Button Factory in the Malda district experiments with crude buttons were carried on by the Industrial Chemist, and improved methods of bleaching and polishing pearl buttons were demonstrated to the proprietors of the factory. In addition to the usual loans granted to ex-students of the Serampore Weaving Institute to enable them to set up weaving factories, assistance in the shape of supplying skilled labour, trained experts or expert instruction, was granted to 20 industrialists or firms.

Besides the above the report makes mention of valuable assistance of various other descriptions rendered and technical information supplied to a large number of industrialists. No less than 400 enquiries for technical information and advice were dealt with during the year, many of which necessitated experimental investigation and even extensive research.

In many cases the department acted as a useful and willing medium for putting industrialists into touch with suppliers of their raw materials as well as with firms supplying suitable type of machinery for their manufacturing operations.

The department also made an endeavour to secure special concessions for industrialists. Thus it is mainly at the instance of the Industries Department that the Forest Department have, since the close of the year, granted, at concessional rates, a lease of the forest block known as Senchal II in the Darjeeling Forest Division to Mr. Sailendra Nath Mitra, proprietor of the Bande Mataram Match Factory, for a period of 30 years. Certain concessions in respect of freight for the carriage over the Eastern Bengal Railway of timber required for the factory have also been secured for Mr. Mitra. The authorities of the Assam-Bengal Railway have, through the intercession of the department, acceded to the request of the Canning and Condiment Works, Limited, Calcutta, to book pineapples from the Sylhet district to Calcutta for *bona fide* canning purposes at quarter parcel rate.

7. **Survey of Cottage Industries.**—As a preliminary to the consideration of the subject of better organisation of and assistance to the cottage industries, a survey was completed of all the cottage industries of the province, and the report of the survey is awaited with interest.

8. **State aid to Industries.**—The Director of Industries has urged the desirability of taking steps to encourage cottage industries and new or nascent basic industries by means of financial aid and by the subsidising of research. The State Aid to Industries Bill which was drawn up to secure these objects is still under the consideration of Government.

9. **Organisation of markets for local products.**—Government notice with pleasure that the department has not been forgetful of the fact that one of the most effective means of stimulating indigenous industries is to find suitable and ready market for the finished products. As instances of the valuable assistance rendered in this direction may be mentioned the following :—

The Director of Equipment and Ordnance Stores, Simla, was requested to place a trial order with the Calcutta Button and Comb Factory for *khaki* horn buttons as well as with the Jessore Comb, Button and Mat Manufacturing Company, Limited, Calcutta, for horn and celluloid dressing combs. The Controller of Contracts, Simla, and the Controller of Stores, East Indian Railway, were requested to call for tenders from Messrs. Dey & Co., Calcutta, who manufacture drums, tanks, tea-tins, bolts, reading lamps, etc. The various Government departments and local bodies were requested to give the Calcutta Box Manufacturing Company an opportunity of tendering for their requirements of packing cases, boxes, planks, and other products of the firm.

10. **Technical and Industrial education.**—At the present stage of development of Indian industries, one of the most effective measures that can be adopted by Government for creating an industrial organisation in this country is to make suitable provision for industrial and technical education with the ultimate object of making India self-contained in respect of skilled labour. His Excellency the Governor regrets that financial stringency stood in the way of any substantial progress being made during the year under review in the matter of technical and industrial education, and applications for financial assistance received from many industrial schools had to be refused.

A sum of Rs. 10,000 was, however, sanctioned as an annual grant-in-aid to the Jamshedpur Technical Institute on the condition that five seats should be reserved for candidates from Bengal. Recruitment of the staff required for the Kanchrapara Technical School was nearly completed during the year, while the remaining staff cannot yet be appointed for want of accommodation to be provided by the railway authorities. The Mining Lecturer and one assistant lecturer required for imparting mining instructions in coal-fields were appointed during the year, and a second Assistant Lecturer has been taken in since its close. Manuals were drawn up on mine surveying and coal mining, and the construction of mining lecture halls at Raniganj and Sitarampur was completed. The number of pupils attending the English and Bengali mining lectures were 204 and 89 respectively. The construction

of buildings for the Calcutta Technical School has also been completed, but the materialisation of this very important and desirable scheme is now awaiting provision of funds and the concurrence of the Calcutta Corporation to the payment of the annual contribution expected from that body towards the recurring expenditure. The Serampore Weaving Institute continued to maintain its high standard of useful work during the year under report. The decision taken by Government on the recommendation of the Bengal Retrenchment Committee abolishing the system of granting stipends and free-studentships to the students of the higher classes adversely affected admission, and Government have consequently revised these orders since the close of the year. The suggestion contained in paragraph 161 of the report for altering the date of commencement of session of the Institute will receive the attention of Government.

One hundred and sixty-three candidates appeared in the Apprenticeship Examination held by the Board of Control for apprenticeship training. Out of these 35 passed. The Board arranged the practical training of eight passed students with approved firms for periods from one to three years.

The Overseer Examination Board was reconstituted. There was a distinct increase in the number of pupils who appeared in the annual technological examination of the City and Guilds of London Institute in both textile and non-textile subjects conducted at the Government Weaving Institute, Serampore, the Jagannath Intermediate College, Dacca, and the Government Commercial Institute, Calcutta, the total number of candidates and the total number who passed being 248 and 85, respectively, against the corresponding figures of 134 and 35 of the previous year.

The total number of industrial and technical schools maintained by Government was 28. The total number of non-Government Institutions during the year was 65 against 60 in the preceding year. Of these 59 were in receipt of grants-in-aid. The total number of pupils attending these 93 schools at the close of the year was 4,039. The total expenditure incurred on them during the year was Rs. 5,73,805 out of which Rs. 2,17,275 was contributed by Government, Rs. 81,035 from local funds, while the balance was met from fees, endowments and other private sources.

A handbook containing full information regarding the courses of study, rules of admission fees, stipends, etc., in the various technical and industrial schools in the province is under preparation by the Director of Industries and is expected to be shortly available to the public.

Two State technical scholarships tenable in England were awarded during the year under review for studying (1) silk weaving, reeling and dyeing, and (2) the manufacture and refining of vegetable and fish oils.

11. His Excellency the Governor records his appreciation of the efficient management of the department by Dr. D. B. Meek and Messrs. Weston and Hoogewerf and of the useful reserch work conducted by Dr. Rasik Lal Dutt, Industrial Chemist, and Mr. B. M. Dass, Superintendent, Calcutta Research Tannery. He also takes this opportunity of expressing his thanks to the members of the Advisory Board of Industries and of the other Boards and Committees connected with the department for their valuable assistance and advice.

DACCA, *the 15th November 1924.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for October 1924.

I. **Character of the season.**—Excepting Jalpaiguri and Bakarganj districts the rainfall was generally below the normal throughout the Presidency. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Preparatory tillage for the spring crops and their sowings, especially of early varieties, were going on favourably. Reaping of transplanted autumn paddy continued in West Bengal till the middle of the month.

III. **State of standing crops.**—Effects of weather on the standing crops were generally favourable, especially in the flood-affected tracts of East Bengal. More rain was required to help the flowering of the late transplanted paddy in parts of West Bengal.

IV. **Prospects and probable outturn.**—The prospects of deep water paddy were generally fair and those of transplanted variety were satisfactory. The prospects of sugarcane were generally good.

V. **Damage to standing crops.**—No appreciable damage to crops was reported from parts of the province during the month.

VI. **Condition of agricultural stock.**—The condition of livestock was fair. Sporadic cases of cattle-disease were, however, reported from 10 districts.

VII. **Failure of pasturage and fodder.**—Scarcity of fodder was reported from parts of Jessore, Faridpur, Rajshahi and Mymensingh districts.

VIII. **Prices of food-grains.**—During the second half of the month, the price of common rice of the cheapest quality rose in 3 districts, fell in 13, and remained stationary in the rest of the province. It ranged from 5 seers per rupee at Dacca, Tippera, Noakhali and the Chittagong Hill Tracts to 7 seers and 8 chitaks per rupee at Nadia and Midnapore.

IX. **Condition of agricultural population.**—The condition of agricultural population was reported to be fair on the whole.

2. No person shall without lawful authority light or cause to be lighted any such lamp or without such authority or any reasonable excuse extinguish or cause the same to be extinguished.

3. If any person, through negligence, accident, or otherwise causes any damage to any of the properties mentioned in sub-clauses (*a*), (*b*) and (*c*) of clause 1, he shall, in addition to the penalty of any fine that may be imposed upon him, be liable to pay the cost of repairing the damage so done by him or of replacing the property injuriously affected.

4. *Gas pipes: How to be laid.*—(*i*) No gas pipe shall be laid in a drain or on the surface of an open channel or house gully.

(*ii*) Gas pipes shall be laid at the greatest practicable distance from water pipes, having regard to the width of the street; and where the width of the street will allow of it the said distance shall not be less than 4 feet.

(*iii*) When it is necessary for a gas pipe to cross a water pipe, the gas pipe shall, if practicable, be laid above the water pipe, and the difference in the depth of the two pipes shall be as great as possible.

(*iv*) A gas pipe so laid shall be at least nine feet in length, and shall be so placed as to form, as nearly as the situation will admit of, a right angle with the water pipe and in such a manner that no joint in the gas pipe may be nearer to any water pipe than four feet.

(*v*) The greatest possible distance shall be kept between a water pipe and a gas pipe which crosses it, and the gas pipe shall throughout its entire length be sufficiently bedded in with good sound clay or fit material of a proper consistence which shall be well worked and rammed into the trench all round the gas pipe.

(*vi*) If any gas pipe be laid in any way contrary to the provisions aforesaid the Corporation may by written notice require the person owning such gas pipe or under whose order or management the pipe has been laid to make such alteration with respect to such pipe as they may think necessary within a specified time, and in default of compliance with such notice, the alteration may be effected by the Corporation and the cost thereof shall be recovered from such person without prejudice to the right of the Corporation to enforce any penalty for breach of this by-law.

5. *Alteration of situation of gas pipes, etc.*—The Corporation may, even if the gas pipe has been laid in accordance with the provisions aforesaid at any time for any of the purposes of this Act, if it appears to them necessary and practicable to do so, by written notice require the owner of any gas pipe or of any other gas work already existing in any street, to raise, sink, or otherwise alter the situation of such pipe or work at the cost of the Corporation.

6. *Offences punishable with fines.*—Whoever contravenes any provision of any of the above by-laws shall be punishable with fine which may extend to Rs. 50, and in case of continual breach, with fine which may extend to Rs. 10 for every day during which the breach continues after conviction for the first breach.

Objections, if any, will be received by the undersigned up to Thursday, the 18th December 1924, after which the proposed by-laws will be further proceeded with.

Messrs. Nelson's wall atlases are good. Mr. S. B. Chatterjee publishes District Maps ; also ordinary and relief maps of the province.

Babu L. M. Basu, the drawing master of the Dacca Collegiate School. has published good relief maps of Eastern Bengal and Assam and of India.

The Vidal-Lablache French wall maps on strong card-board, named on one side, and the same map without names on the reverse, published by Armond Collin Paris, are good and cheap. They measure 46 inches by 39 inches and can be delivered in Calcutta for Rs. 4-14 each.

(4) The hand-maps, coloured to indicate relief, published by the Diagram Company, West Barnes Lane, New Malden, Surrey, at one penny each, are the best of their kind.

The uncoloured half penny maps, showing river systems and a few towns, published by the same Company, are excellent for class use.

The autograph hand maps, with hill shading in brown, published by Messrs. Edward Stanford, London, at one penny each, are very good, and are larger than the Diagram Company's hand maps. The 15 inches map of the world on Mollweide's equal area projection is especially to be commended.

(5) Wall pictures of considerable artistic merit are published by Messrs. Edward Arnold of Leeds, Horns Hacbette of Paris, Messrs. Holzel of Vienna, and Messrs. Longmans, Green and Company. They cost, delivered in India, from two or three rupees each.

Map lantern slides and view slides especially prepared for Geography teaching are sold by the Diagram Company for two or three shillings each. Mr. Burlington Smith of Darjeeling also sells good picture slides of the Himalayas at Rs. 15 per dozen.]

Elementary Mechanics.

The following books are recommended :—

Sir Phillip Magnus	..	...	Elementary Mechanics (Longmans, 1903).
A. N. Sen	...	...	Elementary Mechanics.

The following list of apparatus is prescribed as indicating the approximate requirements of a recognised High School seeking to teach Elementary Mechanics for the Matriculation Examination :—

Plumb-line and level.
Simple lever (including brass slotted weight).
Roman steel-yard.
Lecture apparatus for experiment on movements.
George's New Atwood's Machine.
Stop watch.
Glazebrooke's apparatus (to demonstrate movement of a body).
Hick's Ballistic Balance.
Compound Wheel and Axle.
4 Single Brass Pulleys.
2 Triple Brass Pulleys.
Weston Differential Pulleys Blocks (½ ton)
16 feet of Chain at 6d. per foot.
Inclined Plane.
Parallelogram of Forces apparatus.
Wall Crane.
Becker's New Physical Balance.
Set of grame Weights (200 grams to 1 mgr.).
2 Composition-ivory Balls.

NOTE.—The above list is not exhaustive, and much of it might be replaced by similar forms that could probably be made far more cheaply by any clever mistry under proper supervision. In most cases, however, it will probably be found advantageous to buy such a set as indicated in the list, specially for demonstration purposes, and subsequently to develop simplified duplicates illustrating the same principles, which the boys should be given opportunity actually to experiment with on their own individual account or working in pairs.

RESOLUTION ON THE ANNUAL REPORTS OF THE BENGAL VETERINARY COLLEGE AND OF THE CIVIL VETERINARY DEPARTMENT, BENGAL, FOR THE YEAR 1923-24.

GOVERNMENT OF BENGAL.

DEPARTMENT OF AGRICULTURE AND INDUSTRIES.

Veterinary Branch.

CALCUTTA, THE 10TH NOVEMBER 1924.

RESOLUTION—No. 5564.

READ—

The Annual Reports of the Bengal Veterinary College and of the Civil Veterinary Department, Bengal, for the year 1923-24.

Mr. P. J. Kerr was Director of the Civil Veterinary Department and held charge of the office of Veterinary Adviser to Government up to 23rd February 1924, when he went on leave. Mr. R. T. Davis held charge of the office of the Director, and Mr. A. D. MacGregor that of Veterinary Adviser to Government during the rest of the year. The latter also held charge of the College throughout the year. The post of the Vice-Principal of the College was held by Mr. Davis up to 24th February 1924 and by Mr. S. S. Ahmed during the remaining period of the year under report.

During the year the designations of Superintendent, Civil Veterinary Department, and Second Imperial Officer, Bengal Veterinary College, were changed to "Director, Civil Veterinary Department" and "Vice-Principal, Bengal Veterinary College"; those of the Deputy Superintendents of the department and of the College were changed to "Assistant Directors" and "Lecturers" respectively.

2. The number of students at the Bengal Veterinary College at the end of the session was 137, which was slightly higher than the average of the past three years. Forty-six students appeared at the final examination and 29 passed, of whom 16 belonged to Bengal.

3. The report of the Civil Veterinary Department shows an increase in the mortality of animals from contagious diseases during the year, the total number of deaths reported being 27,389 as against 24,021 in the previous year. Of the total number of deaths rinderpest, which was prevalent more or less in all the districts of Bengal, was responsible for 24,944 as against 20,431 in the previous year, or 91 per cent. of the total mortality. The districts which suffered most from this disease were Rangpur, Mymensingh, Tippera, Burdwan, Birbhum, Nadia, Jessore, Dinajpur, Khulna and Jalpaiguri.

During the year the veterinary assistants attended 1,156 outbreaks of rinderpest, hæmorrhagic septicæmia and anthrax in which preventive inoculation was undertaken. The total number of cattle inoculated was 203,089 against 141,102 cattle inoculated during the previous year. This indicates that the energy displayed by the staff employed in the districts in their professional capacity and in their propaganda work is slowly bearing fruit and that the confidence of the raiyats in their work is on the increase. The number of deaths among inoculated cattle was 1,162 or ·6 per cent. of the total.

Leaflets were freely distributed as in previous years, and lectures were also delivered by the staff among the raiyats with regard to the care, management and treatment of cattle. His Excellency the Governor notes with satisfaction that the practice of talking to boys in primary schools in Eastern Bengal by veterinary officers on animal husbandry, etc., has been greatly appreciated by the villagers and trusts that the efforts of the department to introduce this system throughout this province will meet with success.

4. The veterinary assistants visited 14,571 villages and treated 75,657 cases during the year under report, the corresponding figures for the two previous years being 14,438 villages and 81,986 patients and 12,084 villages and 67,511 animals, respectively.

5. All the stables and cattle byres in the Calcutta glanders area were regularly inspected by the glanders staff. Altogether 49 horses were seized and kept under observation, of which fifteen were destroyed from glanders after Mallein test, seven died of glanders, and the remaining 27 were discharged as free from that disease.

6. In spite of the observations made in the Government resolutions on the preceding years' reports there was little progress in the establishment of new dispensaries, and the number now stands at 41 only, the same as in the previous year. The number of patients treated at these dispensaries during the year was 44,952 as against 53,692 in the previous year. The decrease is reported to be principally due to the exclusion of the Sodepur Pinjrapole Hospital from the list of veterinary hospitals and dispensaries as there was no veterinary assistant surgeon employed in it during the year.

7. The number of stud bulls maintained in the province during the year under report was 176 against 159, 156 and 132 in the three preceding years. The breed of cattle in Bengal is notoriously poor. As pointed out by the Director, the lack of good breeding bulls constitutes a serious drawback to the improvement of cattle. In the Rangpur Cattle Farm an improved breed of cattle, both for draught and milking purposes, has been evolved. The bulls supplied from the farm are distinctly superior to local bulls, whilst they have an advantage over imported stock on account of their local origin. His Excellency the Governor trusts that the Veterinary Department will co-operate with the Agricultural Department in popularizing the use of the bulls of the Rangpur Cattle Farm for breeding purposes and thereby assisting in the improvement of the local breed of cattle. He also desires to impress upon the local bodies the importance of the improvement of cattle by the larger provision of good stud bulls and trusts that they will take early steps to increase the number of these bulls.

8. The Director of the Civil Veterinary Department has again drawn the particular attention of the local bodies to the pressing need for a larger provision of funds and staff for the prevention of cattle diseases. The value of the work of the department in relation to the live-stock in Bengal on which the agricultural prosperity of the province chiefly depends cannot be overestimated. The serious economic loss which would have followed but for the services of the officers of the department can be easily realised from the fact that out of over 2 lakhs of bovines inoculated during outbreaks in the course of the year about 1,000 only died, whilst the total number of deaths of bovines from contagious diseases was 27,000. In order to increase the usefulness of the department and effectively to check the mortality of cattle from preventible diseases His Excellency the Governor relies upon the assistance of the local bodies, who, he trusts, will co-operate with the Government by providing for larger expenditure on dispensaries, preventive inoculation and provision of the necessary staff of veterinary assistant surgeons.

9. The Director has drawn attention to the evil of cattle poisoning by arsenic practised by a class of people which has become a source of considerable loss to the raiyats. He considers that it is now time to restrict the possession of the poison. Section 4 of the Poisons Act, 1919 (XII of 1919), empowers the Local Government to regulate by rule the possession of arsenic in any local area in which its use for the purpose of poisoning cattle appears to be of frequent occurrence. The Director should institute special enquiries into the matter and submit a report to Government in due course.

10. His Excellency the Governor has much pleasure in acknowledging the valuable services of Mr. P. J. Kerr as Director, Civil Veterinary Department, and Veterinary Adviser to Government, and in recording his appreciation of the good work done by Messrs. A. D. MacGregor and R. T. Davis in connection with the Civil Veterinary Department and the Bengal Veterinary College. The names of other officers commended by the Director and the Principal have also been noted.

By order of the Government of Bengal
(Department of Agriculture and Industries),

G. S. DUTT,
Secretary to the Government of Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 19th November 1924.

Summary.—During the week the rainfall was generally light to moderate. It has retarded the agricultural operations for spring crops generally and caused slight damage to standing crops in the Burdwan Division and in parts of North and East Bengal. Elsewhere the condition of crops is satisfactory. Harvesting of winter paddy continues. The average price of common rice for the province has risen by about 6·30 per cent. as compared with that of the previous week. The rise is most marked in the East Bengal districts.

RESOLUTION ON THE SIXTY-SECOND ANNUAL REPORT OF THE GOVERNMENT CINCHONA PLANTATIONS AND FACTORY IN BENGAL FOR THE YEAR 1923-24.

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Cinchona.

CALCUTTA, THE 21ST NOVEMBER 1924.

RESOLUTION—No. 9275Cin.

READ—

The Sixty-Second Annual Report of the Government Cinchona Plantations and Factory in Bengal for the year 1923-24.

READ ALSO—

The Report of the previous year.

The Sixty-Second Annual Report of the Government Cinchona Plantations and Factory in Bengal, written by the officiating Superintendent Mr. Calder, is an interesting and satisfactory record of the work done during the year 1923-24.

The policy of the Government of Bengal is to maintain and, if possible, extend the Cinchona Plantations and at the same time to improve and develop the factory, in order to meet the requirements of the province. The extension of the plantations is limited by the fact that cinchona is a plant that requires a certain combination of soil, rainfall and elevation, and will not grow unless these three conditions are suitable. It is therefore a matter of satisfaction that in spite of a deficient rainfall in both the Mungpoo and Munsong plantations and difficulty in obtaining labour, the Superintendent is able to record an increase in the area under cinchona from 3,026 acres in 1922-23 to 3,055 acres in 1923-24. The Governor in Council hopes that it will be possible during the present year to make a further extension of the area.

The factory deals not only with the bark produced on the Bengal plantations, but also with Java bark purchased by the Government of India, which pays this Government for the cost of extraction. It depends on the supply of water for its power, and was affected in the year under report by the deficient rainfall. The Superintendent hopes to obtain a better supply of water from a new channel. The total products from both the local and Java bark were 56,822 lbs., of which 43,264 lbs. were quinine sulphate, being nearly the same as the quantities produced last year. The fact that analysis showed that the amount of quinine sulphate present in the bark was 47,535 lbs., whilst 43,204 lbs. were actually extracted, shows that the methods followed in the factory are efficient.

The price at which quinine sulphate was sold during the year was Rs. 27 to Rs. 29. The selling rate is based on and fluctuates with the market rate; it may be noted for comparison that before the War, the price was Rs. 11-8 and rose to Rs. 48 in 1922. The financial results to the province have naturally varied with the market rates, which are beyond the control of Government, but it is satisfactory to find that whilst the total expenditure on the department was Rs. 3,35,655, the total receipts were Rs. 7,92,480 These receipts include a sum of Rs. 2,18,473 credited to the Juvenile Jail, Alipore, in accordance with the arrangement by which that Jail manufactures quinine tablets and distributes quinine products. The profit and loss valuation shows a profit balance of Rs. 7,30,387. His Excellency in Council agrees with the Superintendent that this may be considered a very satisfactory result of the year's working.

The Governor in Council takes this opportunity of placing on record his appreciation of the valuable work done by Lieutenant-Colonel A. T. Gage, C.I.E., I.M.S., now on leave, during the many years he held charge of the plantations. The thanks of Government are also due to Mr. G. E. Shaw, Government Quinologist, for the efficient working of the factory, and to Mr. C. C. Calder, who has officiated as Superintendent since the beginning of 1923, for his interesting report and his successful administration of the plantations.

By order of the Governor in Council,

Secretary to the Government of Bengal (offg.).

RESOLUTION ON THE REPORT OF THE BOARD OF REVENUE ON THE LAND REVENUE ADMINISTRATION OF THE PRESIDENCY OF BENGAL FOR THE YEAR 1923-24.

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Land Revenue.

CALCUTTA, THE 25TH NOVEMBER 1924.

RESOLUTION—No. 9510.

READ—

The Report of the Board of Revenue on the Land Revenue Administration of the Presidency for the year 1923-24.

THE office of the Member of the Board of Revenue was held by Mr. F. C. French, C.S.I., from the beginning of the year under report up till 18th June. He was succeeded by Mr. K. C. De, C.I.E., who remained in office till the 19th November. Mr. D. H. Lees, C.S.I., held the office during the rest of the year.

2. It is not easy to make a general estimate of the material condition of the people of so large an area as Bengal, but the opinion of the Board of Revenue is that the agricultural population on the whole did not fare badly in the year under review. The labouring classes continued to be benefited by high wages, but middle class people with fixed incomes again suffered from the high prices of necessaries.

3. The collection of land revenue was on the whole satisfactory. The current demand showed a decrease of about Rs. 4,32,000, but this was only apparent, as the demand for the previous year had been inflated by the inclusion of a portion of the revenue payable on account of the year 1921-22 in respect of temporarily settled tea estates and jotes in the Western Duars in the district of Jalpaiguri.

4. The cost of management of Government estates has risen owing to the increase in pay granted to the staff, and this has made it impossible to devote sufficient funds to agricultural and other improvements. Government, however, hope in future to allot to the Board of Revenue 13½ per cent. of the estimated collections from Government estates to defray the expenses of management and improvement, instead of the 12 per cent. now allowed. At the same time it is expected that the recent decision to replace Sub-Deputy Collectors by settlement kanungos in certain offices in Government estates will reduce expenditure on management and make more money available for improvements.

The interesting summary of twelve years' colonization work in the Sundarbans in the district of Bakarganj is a special feature of this year's report. It shows very satisfactory progress, and the Governor in Council is pleased to note the praise accorded by the Board of Revenue to the colonization officer, Khan Bahadur Quamaruddin Ahmad. Out of a total area of 178 square miles, 102 square miles have been fully colonized, assessed, and made over to the khas mahal department. Work is in progress in 63 square miles, and only 13 square miles still remain under virgin forest. The present annual demand of the assessed area is Rs. 91,000, and this will ultimately rise to Rs. 2,11,576. The expenditure incurred on the work from the commencement up to the end of the year 1922-23 amounts to Rs. 10,06,090, of which Rs. 8,91,555 has already been recovered in the form of rent and other receipts.

5. The Board of Revenue have again remarked on the not very satisfactory relations between landlord and tenant, and the prevalence of the practice of levying *abwabs* and illegal cesses Such conditions, however, in the opinion of the Governor in Council, are far from being universal, and it is to be remembered that good management is less likely to come to notice than bad. There is also good reason to believe that the publication of records of rights in districts in which settlement operations have been completed has resulted in a better appreciation of their rights by both landlords and tenants, and there are signs of a growing tendency not to demand nor pay more than is due.

6. The Bill for the amendment of the Bengal Tenancy Act, drawn up by the Committee appointed for that purpose, was subjected to much criticism. The opinions received have been considered by Government, and a revised Bill is being drafted. The production of a satisfactory Bill, however, is rendered difficult not only by the diversity of customs and conditions in various parts of the province, but also by the acute differences of opinion which prevail amongst all who are interested in the solution of the complicated questions involved in any attempt to amend the more important provisions of the Act. It is, however, hoped that one difficult problem has been solved by the passing of the Bengal Tenancy (Utbandi Amendment) Act, 1923, which provides means whereby a uniform annual money rent may be determined for utbandi lands on the application of either the landlord or the tenant.

The provisions of the Bengal Tenancy Amendment Act, 1918, by which restrictions may be imposed on the transfer of lands by certain aboriginal peoples have proved successful, and have now been extended to the Sonthals of Malda and Rajshahi districts and to the Garos, Hadis, Hajangs and Koches in the northern part of the district of Mymensingh.

7. The thanks of the Governor in Council are due to the Board of Revenue for the efficient administration of the Land Revenue Department.

By order of the Governor in Council,

W. S. HOPKYNS,

Secretary to the Government of Bengal (offg.).

RESOLUTION ON THE ANNUAL PROGRESS REPORT ON THE FOREST ADMINISTRATION IN THE PRESIDENCY OF BENGAL FOR THE YEAR ENDING THE 31ST MARCH 1924.

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Forests.

CALCUTTA, THE 25TH NOVEMBER 1924.

RESOLUTION—No. 9520.

READ—

The Annual Progress Report on the Forest Administration in the Presidency of Bengal for the year ending the 31st March 1924.

READ ALSO—

The report of the previous year and the Government resolution thereon.

MR. R. C. MILWARD was in charge of the department for eight months and Mr. Shebbeare for four months during the absence of the former on leave.

2. In the Bengal Presidency Forest Manual it is said that a forest fulfils its highest function when it produces, in a permanent fashion, the greatest possible quantity of that material which is most useful to the general public, and at the same time yields the best possible return to the proprietor. The report presented by the Conservator of Forests, which includes a brief review of the results of the last five years' work as compared with the preceding five years, shows what is being done for the preservation and development of the forests of Bengal. what has been done to meet the needs of the people for forest produce, and the financial results to the province.

3. The forests, with which the report is concerned, lie along the hills in the north, in the Sundarbans in the south, and in Chittagong district and the Chittagong Hill Tracts in the south-east. They cover an area of 11,223 square miles, which is just one-seventh of the total area of the province. Out of this large area, 5,287 square miles are now classed as Reserved Forest, in which rights have been ascertained, settled and recorded within notified boundaries in accordance with the Indian Forest Act of 1878; 1,753 square miles are Protected Forest; the rest is unclassed.

4. The first three chapters of the report deal with constitution, management and silviculture, and show the varied nature of the work which has to be done for the preservation and development of the forests. Constitution in the year under review cost less than Rs. 10,000, but included the work of adding 143 square miles to the Reserved Forest, the settlement of 135 square miles, the demarcation of 103 miles of the exterior boundaries of new reserves, and the repairs of 1,052 miles of old boundaries.

5. Management includes the preparation of working-plans, the maintenance and construction of communications and buildings and the protection of the forests against damage of all kinds. The object of working-plans, in the words of the Manual, is to work the forests in such a way that they may meet the demand upon them, to any extent required, without waste and without impairing the source of supply; within this limit it is for the local Government to regulate the supply of forest produce to meet local wants. Such plans have now been prepared for 6,597 square miles of forest.

6 The construction and maintenance of roads and paths are essential for the development and exploitation of the forests, and an expenditure of Rs. 36,097 can only be regarded as moderate. Of this sum Rs. 8,648 were spent on 4 miles of new cart roads, 22 miles of new bridle paths and 13 miles of other paths; the rest sufficed for the maintenance of 406 miles of cart roads, 978 miles of bridle paths and 337 miles of other paths.

7. The expenditure on buildings, Rs. 51,536, was about Rs. 8,000 less than in the previous year. The greater part was devoted to the repairs of rest-houses and quarters for subordinates.

8. Forests have many enemies, and protection includes action taken to prevent incendiarism and carelessness with fire, unauthorised felling of trees and grazing, the prevention of forest fires by the clearance of fire-traces and by patrols, and protection against damage by insects, wild animals, disease, climbers and weeds, and erosion and silting of rivers.

9. In the chapter on silviculture the Conservator of Forests has discussed the various methods followed in re-stocking areas when the trees have been felled. The methods are determined by local conditions, including the supply of labour, and vary between natural regeneration when no artificial work is necessary, and the regular and *taungya* plantations in clear-felled areas, in which forest villagers grow their own crops and the tree seedlings together. It is satisfactory that good progress has been made with these plantations, but it is a matter for regret that owing to the shortage of staff no officer could be spared for the post of Silviculturist. For work of this nature experiments and careful and regular observation are necessary, and Government agree with the Conservator of Forests that the provision of a Silviculturist is an important matter.

10. Practically all the products of the forests are consumed by the people of Bengal, and the chapter on exploitation will show the extent to which the demand is met. The principal items are grazing, fuel, bamboos and timber. It is sometimes alleged that grazing in the State forests is unduly restricted; but the fact is that grazing is allowed in more than half the total area of forest, as the entire area of unclassed forest, 14 per cent. of the Reserved Forests and 3 per cent. of the Protected Forests, are open to grazing. The question of allowing grazing in the Duars forests has been taken up, and it is interesting to note that the Conservator of Forests thinks that natural regeneration of the forest may be assisted by controlled grazing. More than 12 million cubic feet of fuel and a little less than 22 million bamboos were produced. Messrs. Andrew Yule & Co. paid the minimum royalty of Rs. 10,000 for the bamboos removed by them for the manufacture of paper pulp; the number of bamboos removed by them in 1923-24 was reported to have been a little less than 1,600,000.

11. The quantity of timber produced in the forests was about 17 million cubic feet. Only some 322,000 cubic feet of this were extracted by departmental agency, including sleepers sold to the Eastern Bengal Railway. The sale of *sal* logs through Messrs. Martin & Co. has not proved satisfactory and has been discontinued. *Pucca saj logs* sold through Messrs. Howard & Co., London, realised a good price, but the quantity was very small and sales were slow. It may be hoped that the demand for this timber will have been stimulated by the Wembley Exhibition.

The report, however, shows that most of the timber is sold standing to purchasers at auction, no less than 16,425,000 cubic feet being sold in this way. A rise in the market price resulted in large sales of *sal*, and it is satisfactory to note that the figures of sale show an improvement under all heads except *sundri*.

12. Khedda operations were carried out under the supervision of the Forest Department, but were financed by a syndicate under an arrangement by which profits were to be shared between Government and the syndicate. Fifty-seven elephants were caught, but owing to the market being flooded by large catches elsewhere, very low prices were realised and there were no profits to share. The local people, however, were benefited by the reduction in the number of elephants, which had been damaging crops in the vicinity of the forests.

13. The financial results have again been satisfactory. The total revenue was Rs. 22,61,515, and the expenditure Rs. 12,42,672, giving a net revenue of Rs. 10,18,843. This is slightly less than the figure of last year, but is well above the average of the five years 1919-20 to 1923-24, Rs. 8,65,766, which again is higher than that of the preceding five years, Rs. 7,53,671.

14. The thanks of the Governor in Council are due to Mr. R. C. Milward for his successful administration of the department and to all other officers who have helped in securing the good results shown in the report.

ORDER.—Ordered that this resolution be published in the *Calcutta Gazette* and that a copy with a copy of the report be submitted to the Government of India.

2. The Electoral Roll of every constituency shall be prepared and published by the Executive Officer or such other officer or person as he may from time to time specially appoint in writing in this behalf.

The Executive Officer or such other officer or person shall be called the "Registering Authority" for this purpose, and he may employ such agency as he may think fit for the preparation and publication of the Electoral Roll.

3. The Electoral Roll of every constituency shall be in English, but in order to give it wide publicity, the Executive Officer may, if he thinks fit, also order the publication of a copy in such vernacular or vernaculars as he may think fit.

4. On or before the 15 day of November immediately preceding each general election, the Registering Authority shall prepare or cause to be prepared a complete Electoral Roll (hereinafter referred to as the Preliminary Roll) for each constituency containing the names of all persons who appear to the Registering Authority to be entitled to be registered as electors for that constituency.

5. In the case of a constituency other than a special constituency, the Preliminary Roll shall be prepared ward by ward, but the Registering Authority may, if he thinks fit, prepare a consolidated Preliminary Roll for several wards comprising a constituency or part of a constituency. The Registering Authority may also sub-divide the roll in such other manner or into such other parts as he may deem expedient for the purpose of facilitating the preparation of the roll.

6. The names of electors registered in the Preliminary Roll or any part of the Preliminary Roll of any such constituency as aforesaid shall be arranged in accordance with the alphabetical order of the names (in English) of the streets and the numbering of the premises in such streets contained in the said roll or part of the roll as the case may be. Where a person is registered as the representative of any company, body corporate, firm, joint family or other association of individuals, or as the manager of a lunatic or the guardian of a minor, a distinctive sign or mark shall be placed against his name in the Preliminary Roll to indicate the fact. Persons qualified as electors under clause (*b*) or clause (*c*) of sub-section (*1*) of section 20 of the Act shall also have a distinctive sign or mark placed against their names in the Preliminary Roll, unless it is decided to publish their names in a separate part or parts of the Preliminary Roll.

17. The Executive Officer shall cause to be published from time to time on the notice-board at the Central Municipal Office a notice showing generally the dates on which and the places at which the Revising Authority will sit for hearing claims and objections.

18. The Revising Authority shall dispose of all claims and objections by a date to be fixed by the Executive Officer.

It shall be the duty of the Executive Officer to produce all relevant or necessary documents or papers in his power or possession and otherwise render necessary assistance to the Revising Authority in the discharge of his duties.

20. (1) Are you the person enrolled as follows (reading the whole entry from the roll)? and,

(2) Have you already voted at the present election in this constituency as such voter?

and the elector shall not be supplied with a ballot paper if he refuses to answer any one of the questions and unless he answers the first question in the affirmative and the second question in the negative.

30. The ballot paper shall be in Form II annexed to these rules and shall contain the names of the candidates arranged alphabetically in the order of their surnames in English. The names and the instructions in the form may be printed in such vernaculars as the Executive Officer thinks fit having regard to each constituency. The ballot papers shall be serially numbered, the serial number being printed on the face of the counterfoil and on the back of the ballot paper.

31. If a person representing himself to be a particular elector named on the electoral roll applies for a ballot paper after another person has voted as such elector, the applicant shall, after duly answering such questions as the presiding officer may ask, be entitled to mark a ballot paper in the same manner as any other elector. Such ballot paper (hereinafter referred to as a "tendered ballot paper" shall be of a colour different from the other ballot papers, and instead of being put into the ballot box, shall be given to the presiding officer and endorsed by him with the name of the elector and his number on the electoral roll and the name of the electoral area to which the roll relates and shall be set aside in a separate packet and shall not be counted by the Returning Officer. The name of the elector and his number in the electoral roll and the name or distinctive number of the polling station to which the roll relates shall be entered in a list in Form III annexed to these rules, which shall bear the heading "Tendered votes list." The person tendering such ballot paper shall sign his name and address thereon or affix his thumb impression against the entry in that list.

32. If any polling agent declares in writing and undertakes to prove that any person by applying for a ballot paper has committed the offence of personation, the presiding officer may require such person to enter in the list of challenged votes (which shall be in Form IV annexed to these rules) his name and address, or if he is unable to write, to affix his thumb impression thereto and may further require such person to produce evidence of identification. If such person on being questioned in the manner provided in rule 29 answers the first question in the affirmative and the other question in the negative, he shall be allowed to vote after he has been informed of the penalty for personation. The presiding officer shall make a note of the circumstances, and of his decision on the list of challenged votes.

33. A voter who has inadvertently dealt with his ballot paper in such a manner that it cannot conveniently be used as a ballot paper may, on delivering it to the presiding officer and satisfying him of the inadvertence, obtain another ballot paper in place of the spoilt paper, and the latter shall, together with its counterfoil, be marked as cancelled.

34. A presiding officer, polling officer, election agent or polling agent who is on duty at a polling station at which he is not entitled to vote shall, if he is certified by

the Returning Officer of the constituency in which he is entitled to vote, as being entitled to vote at the election for the said constituency, be allowed to record his vote at the polling station. For this purpose he may use one of the ballot papers at such polling station, and the presiding officer shall enter in the counterfoil of the ballot paper the name of the polling station a which he is entitled to vote.

35. Such ballot paper shall be placed in an envelope and sealed by the presiding officer and returned with the certificate referred to in rule 34 to the Returning Officer who has granted the same, and such Returning Officer shall cause such vote to be included among the other votes given for the candidate designated by the elector.

36. The presiding officer of each polling station, as soon as practicable after the close of the poll, shall, in the presence of any candidates or polling agents who may be present, make up into separate parcels and seal with his own seal and the seal of such candidates or agents as may desire to affix their seal,—

(2) the unused ballot papers;

(3) the tendered ballot papers;

(4) the spoilt ballot papers;

(6) the counterfoils of the ballot papers;

(7) the tendered votes list; and

(8) the list of challenged votes;

and shall deliver such packets to the Returning Officer.

37. The packets shall be accompanied by a statement in Form V annexed to these rules made by the presiding officer, showing the number of ballot papers entrusted to him, and accounting for them under the heads of ballot papers in the ballot box, unused, spoilt, and tendered ballot papers, and ballot papers dealt with under the rules.

Scrutiny of votes.

38. The Executive Officer shall appoint a date, time and place for the counting of votes and shall give notice in writing thereof to all candidates and election agents. Such date must not be later than a week after the polling day.

39. (*1*) No person shall be allowed to be present at the counting of the votes except the Returning Officer and such persons as he may appoint to assist him in counting the votes, and such other persons as have a right to be present under section 29, sub-section (*5*) of the Act.

(*2*) No person shall be appointed to assist in counting the votes, who has been employed by or on behalf of any candidate for any purpose whatsoever connected with the election.

40. On the day and at the time appointed under rule 38 the Returning Officer shall, before he commences to count the votes, read the provisions of section 14 of the Indian Election Offences and Inquiries Act, 1920, to such persons as may be present and shall then proceed as follows:—

(*a*) The ballot box or boxes relating to each polling station shall be opened one after another, and the Returning Officer shall take out the papers therefrom, count them or cause them to be counted, and record the number thereof in a statement. Such statement shall not be shown to any candidate or agent.

(*b*) The Returning Officer shall then mix together all the ballot papers so taken out from the ballot boxes and distribute them in convenient bundles to the persons appointed to assist in counting the votes.

(*c*) When the ballot papers have been so distributed, but not before, the Returning Officer shall allow the candidates and their agents reasonable opportunity to inspect, without handling the ballot papers, and shall on every ballot paper which is wholly or partially rejected endorse the word "Rejected". If any candidate or agent present questions the correctness of the rejection, he shall also record on the ballot paper the grounds for the rejection. No candidate or agent shall be allowed to see the serial number on the back of any ballot paper.

(*d*) The Returning Officer, shall, as far as practicable, proceed continuously with the counting of the votes; and shall, during any necessary intervals during which the counting has to be suspended, place the ballot papers, packets and other documents relating to the election under his own seal and the seals of such candidates or agents as may desire to affix them and shall cause adequate precautions to be taken for their safe custody.
